## Di-n-butyltinoxide

### Granular

CAS-No.: 818-08-6

#### Properties

Molecular mass	g/mol	248,9
Bulk density	g/cm <sup>3</sup>	0,6 - 0,8
Colour		colourless

#### Specification

#### Test method

Content of tin	%	min 47,0	A2.3
Content of chloride	%	max 0,2	A5.1
Content of MBTO	%	max 3,0	A11.3
Loss of weight	%	max 0,5	A7
Content of Fe	ppm	max 10	A3.1

#### Description of the product

Granules with heavy solubility in organic solvents and water.

#### Application

Material is used mainly in the plastic industry for production of PVC stabilizers and as catalyst for esterification and transesterification.

#### Transport and storage

Material is delivered in fibre drums with PE-inliner or in big bags ; should be stored at room temperature.

In closed original packing units has a shelf life up to 6 months without deviation in quality.

#### Safety instruction

Please consider the information in the Safety Data Sheet.

The above mentioned information contained herein is based on the present state of our knowledge and does not therefore guarantee certain properties of specific applications. The quality is guaranteed within our sale and delivery conditions. Recipients of our product must take responsibility for observing existing laws and regulations.
